

# Trip suggestion from Castellammare di Stabia Route 2

Destination from:	to:
Castellammare di Stabia	Procida
Procida	Ischia
Ischia	Castellammare di Stabia

## Location descriptions

### Procida

The first thing you discover about Procida is the colourful ensemble of houses. Yellow, blue, red, orange, white: a rainbow that welcomes the traveller to this small island, not very touristy and so extraordinarily authentic. The beauty of Procida is all here: fishermen, blue sea and boats, lemons, hills, small villages frozen in time.

Like **Corricella**, a small cluster of colourful fishermen's houses chosen by Massimo Troisi for some scenes in the film *Il Postino*. Then there are the beaches, almost all of which are accessible, with fine sand or thick volcanic sand, but always washed by a crystal-clear sea.

A boat trip around Procida will allow you to admire places like the medieval centre of Terra Murata, the seaside village of Marina Corricella, the Chiaiolella bay and the lighthouse.

### Ischia

Ischia is a volcanic island in the Gulf of Naples in Italy. The thermal springs gush out at Maronti beach, located to the south. To the east, Roman remains can be found on the seabed at Cartaromana beach. The beach overlooks the medieval Aragonese Castle, connected to Ischia by a stone bridge.

If you like to visit archaeological sites, you cannot miss the Roman settlements of Ischia. You must absolutely visit the suggestive Aragonese Castle, the port and the ancient Villa de' Bagni.

But Ischia is above all sea, beaches and beautiful bays; from the fine sand of the Spiaggia dei Pescatori (Fishermen's beach) to the Spiaggia degli Inglesi (English beach), just a short walk from the port of Ischia.

Only in **Ischia** you can find ancient **thermal springs and natural pools** that flow directly from the beach where sea water mixes with thermal water.

Please note that this is just a possible trip suggestion. Italy offers a a lot of bathing stops and sailing opportunities. Please adapt your individual route to the given wind and weather conditions.
